Experience

Intializ Pvt. Ltd.

Aug 2023 - Now

Software Developer Engineer

Gurugram

- Led the development of scalable backend systems and **AI-powered** solutions across **defense**, **fintech**, and **infrastructure** domains.
- Architected the Indian Army's first-ever data lake, optimizing data storage, accessibility, and enabling actionable intelligence through a **text-to-SQL** chatbot powered by **LLMs**.
- Designed and implemented **Retrieval-Augmented Generation (RAG)** systems for document intelligence — extracting text from PDFs, generating embeddings, and leveraging **Qdrant DB** for efficient **vector search** and retrieval.
- Pioneered digital lending platform enhancements via **NSDL**, **Aadhaar**, and **PAN verification** integrations, slashing user onboarding time by 57% and boosting application approvals by 9% due to streamlined identity checks.
- Designed scalable **PostgreSQL** database schemas supporting **50+ complex entities**, ensuring efficient storage and high-performance data retrieval.
- Built a secure **Secret Management Platform** with client-side encryption & decryption, implementing Role-Based Access Control (**RBAC**) for fine-grained access to sensitive information.
- Developed a **Kubernetes Controller** to dynamically manage and update 50+ secrets based on Custom Resources, achieving a 67% reduction in system update latency using Golang concurrency patterns.

EMSEC Pvt. Ltd.

Mar 2023- Aug 2023

Software Developer Intern

Remote

- Developed **scalable RESTful APIs** using **Python** and **Flask**, handling **1,000+** user requests per minute, significantly improving backend performance.
- Implemented an **automated web scraping solution** to collect **SSL certificate details** from **300+** domains.

Technical Skills

Languages	Golang, TypeScript, SQL, Python, Javascript, C++, SQL, Elixir
Tools & Frameworks	Go-Gin, React.Js , Next.Js, Fast-API, Flask, Tailwind CSS, Phoenix
Databases	Postgres, MongoDB, Qdrant DB, Redis
Platform	AWS, Terraform
DevOps & Version Control	Git, Docker, Kubernetes, GitHub Action

Education

Dr. APJ Abdul Kalam Technical University

Nov 2020 – Jun 2024

Bachelor of Technology- Computer Science and Engineering

Kanpur, India

Maharshi Patanjali Vidya Mandir

Apr 2017 - Apr 2019

Intermediate

Allahabad, India

Projects

Rehabify | Golang, TypeScript, MongoDB, React.js

July 2024

- Developed **Rehabify**, a centralized platform for addiction recovery and rehabilitation in India, leveraging **Golang**, **TypeScript**, and **MongoDB** to streamline access to essential resources. Built a **React.js**-based dynamic and responsive frontend with advanced search functionality, ensuring seamless user experience across devices. Key features include **patient registration and tracking**, a **comprehensive resource directory**, **home remedies**, enhancing accessibility and support for individuals in recovery. . [Github](#)

Unzip_N_Open | Golang, CLI , Go Cobra

May 2024

- Developed **Unzip N Open**, a **CLI** tool built with **Golang** and **Go Cobra** to simplify file extraction and opening in various IDEs or text editors across **Linux**, **Windows**, and **macOS**. Implemented features for seamless unzipping and direct integration with **IntelliJ IDEA** and **Visual Studio Code**. . [Github](#)

Certificates / Achievements

- **AWS Certified Solutions Architect - Associate** Oct 2023
- **LFD121: Developing Secure Software (The Linux Foundation)**
- **GitHub Copilot (GitHub)**
